Re: Welsbach/General Gas Mantle Site – Johnson Boulevard Property Group Remedial Action Report

Dear Mr. Duffy:

The U.S. Environmental Protection Agency (EPA) has completed its review of the Remedial Action Report – Residential Properties (Residential Properties RAR) at the Welsbach/General Gas Mantle Site (the Site) in Camden and Gloucester City, New Jersey. The Residential Properties RAR documents the results of the excavation and removal of radiologically contaminated soils and debris from 51 properties (33 property groups) at the Site.

EPA finds the RAR to be acceptable, and hereby approves the document. If you have any questions please contact Rick Robinson, of my staff, at (212) 637-4371.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Carole Petersen".

Carole Petersen, Chief
New Jersey Remediation Branch
